

IMDH 2026

Leukerbad, Switzerland | November 10-12, 2026

2026 International Conference on Intelligent Medicine and Digital Health

In response to global population ageing and the accelerating digital transformation of healthcare, IMDH 2026 serves as a premier interdisciplinary forum dedicated to precision medicine, telemedicine, AI-driven clinical applications, and innovative digital health solutions. Our goal is to bridge academia and industry, address real-world challenges, promote intelligent governance, and foster cross-border partnerships that drive translational research and scalable innovation.

Join leading researchers, clinicians, engineers, and policy-makers as we shape the future of intelligent medicine and digital wellness.

General Chairs

Xingen Lei
Fellow, National Academy of Inventors;
Professor, Cornell University, USA.

João Manuel R. S. Tavares
Professor, Universidade do Porto,
Portugal.
